Past Voluntary Work Experience

I joined the school's scout movement and also the choir club, which had been actively involved in charity events such as visiting the old folk's home and orphanage/refugee welfare homes. I also am an active member of the Youth Members in the community of my area and also my church. During my college days, I volunteered in different organizations such as the Rotaract Club, Free Tree Society and Women and Health's Association, KL. I plan to do more volunteering in the future if any opportunity arises.

Hobbies/Interests

I love everything about music production, programming and traveling. I recently founded 365 Days of Quote, (<http://facebook.com/365daysofquote>) as I occasionally travel to places to interview people about their life, and I enjoy taking photographs. I'm also a self-taught guitarist, music producer (<https://soundcloud.com/michowler>), video-editor (My YouTube account <https://www.youtube.com/michowler>), etc. I do have a song cover posted on Spotify if you are interested, <http://bit.ly/2skR9yy>.
